

Communities In Schools, a program in each of the Baldwin County Schools, has hired me to serve as a Family Literacy Director. My overall goal is to assist parents of our students in continuing their education. If you are interested in earning a GED, finishing your high school diploma, or earning a technical degree, I can be of assistance. There is more than one option available to you –

- ❖ Eckerd Connects offers an 8-week GED and Workforce Development Program to people ages 17-24 who meet certain criteria. This program is free AND pays participants to earn their GED and/or for a 12-week work program.
- ❖ Foothills Charter offers you the opportunity to earn your diploma if you are 5 or less credits from completion.
- ❖ Central Georgia Technical College offers a GED program that is free of charge to those who qualify. Continuation to a technical degree is also available.

ALL of these programs are located here in Milledgeville.

I would welcome the opportunity to work with you. All you need to do is reach out and from there I will assist you as needed.

Please take advantage of this educational opportunity so that you can be an inspiration to your children as they, too, are making the same journey.

Mindee Adamson
Family Literacy Director
