POSITIVE**

0.06%

**PERCENTAGE OF
TOTAL STAFF
POPULATION
POSITIVE**

0.14%

To ensure our parents, staff and community members are provided with the most recent and accurate information, the Baldwin County School District will publish weekly COVID-19 status reports each Friday. The BCSD COVID-19 Weekly Status Report will summarize the new positive cases each week within the student population who are attending school in-person as well as in the population of staff members who are working in-person at our schools or in the district office. In accordance with the Georgia Department of Public Health, the school district will work diligently to ensure that proper guidelines are followed to isolate the student/staff diagnosed with COVID-19, identify close contacts and disinfect areas of the school when notified of a positive case.
